## **Finlayson Promoted to VP Engineering at Chesapeake Technology**

*Will Manage Company's Software Development and Strategic Planning Efforts*

Dr. David Finlayson has been promoted from Chief Scientist to Vice President of Engineering at Chesapeake Technology, Inc., it was announced today. Finlayson, a four year CTI veteran who has played a key role in the development of the company's flagship SonarWiz software, will oversee Chesapeake's software development group. He will also spearhead the company's long-term planning efforts.

"We're very pleased to have David take over our software development effort," said John Gann, CTI Chairman. "He has played a major role in establishing SonarWiz as the industry's leading sonar mapping and post-processing solution, and we know the product is in great hands going forward."

Finlayson earned his Ph.D. from University of Washington, was a surveyor for the USGS for eight years, and a sonarman for the US Navy for five years. He is taking over day-to-day engineering management from John Gann. Mr. Gann will continue to manage a broad range of CTI software and business development projects.

In other CTI news, Patrick Zynda has joined Steve Cutcomb and Jake Gann as the newest member of the CTI Technical Support team.

**About Chesapeake Technology, Inc.** Chesapeake Technology, Inc. (CTI) has been offering sonar mapping software, custom solutions, and thought-leading consulting services to the marine geophysical and geological survey industries for over 20 years. CTI's SonarWiz software provides real-time sonar data acquisition and processing for sidescan, sub-bottom, bathymetry, and magnetometer sonar data used by hundreds of clients worldwide, including many of the world's navies, NOAA, USGS, Fugro, Oceaneering, and leading academic institutions. CTI is a privately owned company located in Mountain View, CA.
