

FOR IMMEDIATE RELEASE

JANUARY 2019

Harold Orlinsky Joins Chesapeake Technology as General Manager

Will Manage Company's Sales, Marketing and Software Development

Chesapeake Technology, Inc. (CTI) is pleased to announce the appointment of Harold Orlinsky as General Manager. Harold brings 25 years of experience in the hydrographic field to lead Chesapeake, as they continue to build on SonarWiz their world class software for sidescan, sub bottom and multibeam applications. Under Harold's direction, CTI will provide additional software solutions to users as expand into new areas. In 2019, Harold will be travelling around the world to meet CTI clients, agents and manufacturers. Please join us in welcoming him to the team.

"I've known Harold for 20 years and have great respect for the work he did at HYPACK. We could not have found a better candidate to lead our company into the future", said John Gann, CTI Chairman.

Harold began his career as a NOAA Corps officer, and afterwards, spent his career in the hydrographic field, most recently as GM of HYPACK. He is active in the hydrographic community, serving as Treasurer for The Hydrographic Society of America, has published articles in trade magazines, and provides training for new students in the field of hydrography and surveying.

Harold has an engineering degree from the University of Rochester and completed his MBA at the University of Maryland.

About Chesapeake Technology, Inc. Chesapeake Technology, Inc. (CTI) has been offering sonar mapping software, custom solutions, and thought-leading consulting services to the marine geophysical and geological survey industries for over 20 years. CTI's SonarWiz software provides real-time sonar data acquisition and processing for sidescan, sub-bottom, bathymetry, and magnetometer sonar data used by hundreds of clients worldwide, including many of the world's navies, NOAA, USGS, Fugro, Oceaneering, and leading academic institutions. CTI is a privately-owned company located in Mountain View, CA.
