

Press Release

Date: Thursday, July 1, 2010

FOR IMMEDIATE RELEASE

MOUNTAIN VIEW, CA - As of July 1, 2010, Chesapeake Technology Inc. announces complimentary maintenance for the first 12 months when you purchase SonarWiz 5.

Customers will receive one year of upgrades to all new releases, technical support services, a login and password to the CTI support site, as well as 15% discount off user group workshops. Additionally, you will have the option to upload data files for our technical support team to look at and assist with problem areas.

As always, with each purchase of a SonarWiz 5 license, CTI will provide one year of free bug fixes and telephone, e-mail and web support.

After the initial complimentary year, additional years of maintenance and support (including product upgrades) are available.

For more information about upcoming news and events, please visit the CTI website.

From its location in Mountain View, California, Chesapeake Technology, Inc. (CTI) has been offering custom software and hardware solutions to the marine geophysical and geological survey industry for over 20 years. Through its developments in marine surveying technology, CTI has been a chosen consultant for leaders throughout the marine product industry.
