

FOR IMMEDIATE RELEASE

Chesapeake Technology Honors Top 2011 Distributor

Japanese sales rep increased revenue by 53% over 2010.

Mountain View, CA, March 12, 2012 – Chesapeake Technology, Inc. (CTI), the innovation leaders in sonar data acquisition and processing software, recently honored Aki Inose, of Japan-based Viziotex, with the award as the top global sales representative for 2011.

The 2011 surge in sales was the result of a very large government-backed survey project in the Tohoku coastal area as a result of the March 2011 earthquake and tsunami. Most of major survey companies, including IDEA, KOKUSAI KOGYO, PASCO, KGE, and DAIWA, participated in the project and needed the best possible sonar data mapping software available. SonarWiz 5 was used to map changes to harbors, shipping lanes, and seafloor infrastructure that may have been damaged.

“While the events that lead to this project were very unfortunate, we are extremely please and honored by the use of SonarWIZ to map the resulting damage and seafloor changes,” commented Eileen Gann, Chesapeake CEO. “Mr. Inose has built excellent relationships in the sonar industry in Japan and we congratulate him for his hard work and outstanding results in 2011.”

Mr. Inose, pictured here with his wife and Eileen Gann, accepted the award at Chesapeake Technology’s headquarters in Mountain View, CA.

About Chesapeake Technology, Inc.

Chesapeake Technology, Inc. (CTI) has been offering sonar mapping software, custom solutions, and thought-leading consulting services to the marine geophysical and geological survey industry for over 20 years. CTI’s SonarWiz 5 provides real-time sonar data acquisition and processing software for side scan and sub-bottom sonar systems being used by hundreds of clients worldwide, including most of the world’s navies, NOAA, USGS, Fugro, C&C Technologies and leading academic institutions worldwide. CTI is privately owned and located in Mountain View, CA.
