

Chesapeake SonarWiz Annual Workshop to be held Dec 4-6, 2018 in Florida

Join the Chesapeake Technology team in St. Petersburg, FL for our Annual 3-Day Training Workshop and learn the latest SonarWiz 7 features. The training will be held at Florida Fish and Wildlife, December 4-6.

Registration is \$695 and customers with current SonarWiz EMAs are entitled to a 15% discount. A further "early bird" 10% discount is taken for registrants who sign up before October 1. Light breakfast, full lunch and snacks will be provided.

Please [download](#) and complete the registration form on page 2 of the Workshop flyer or contact Chesapeake for details at +1 (650) 967-2045 or sales@chesapeaketech.com.

Attendees will use SonarWiz 7.3.x and sample data for sidescan, sub-bottom, magnetometry, MBES and SBES processing, as well as on water data acquisition in the Tampa Bay. They will learn advanced interactive planning tools and processing techniques to create 3D images, conduct textual analysis using advanced seabed characterization tools, increase productivity using the 3D area and swath based editing tools, and much more.
